

BALLOT ISSUES ARE BRIEFED FOR RESIDENTS

(Editor's Note—This is the fifth of eight articles explaining propositions appearing on the Nov. 4 election ballot.)

If you are the owner of property, you have a special interest in the pros and cons of Propositions 22 and 23 on the state election ballot.

Proposition 22 would do away with the oath when property statements are filed with the city or county assessor. Owners merely would have to submit a written declaration, risking penalty of perjury for any untrue statement.

Assemblyman Ralph M. Brown, an outspoken supporter of Proposition 22, declares a property owner should be able to complete a statement for the assessor in the same way he makes an income or sales tax return.

Brown complains that under the present law the property owner must undergo the "burdensome" job of appearing personally before the assessor, deputy assessor, or notary public.

Opponents fear that passage of Proposition would spell the end to "equitable" property assessments, because it would shift the duty of making the appraisal from an expert to the layman.

Arguments pro and con also have been voiced over Proposition 23, which would change a constitutional provision enacted in 1879.

Subject of the dispute is the law that whenever a tract exceeds 640 acres, the tract must be divided for tax assessment purposes into parcels not exceeding 640 acres.

Assemblyman Ralph Brown is again the outspoken supporter of this measure. Brown argues that conditions which prompted inclusion of this provision in the Constitution 73 years ago no longer exist.

Opponents of Proposition 23 say they have taken a stand against it because there is "considerable doubt" as to what the amendment actually means. Wording of the measure, warns John Cotton of San Diego, raises the question as to whether the assessment is to be made for purposes of taxation or for valuation.

Proposition 18 seeks to relieve taxpayers in general from paying for removal of slum or blighted areas in a community.

It provides the machinery by which the redeveloped area can, in time, pay for any financial loss resulting from the improvement program.

Some knowledge of the Community Redevelopment Law is necessary if the voter is to ballot intelligently on Proposition 18.

The Community Redevelopment Law is not a public housing measure. It attempts to replace slum or blighted areas with new structures, whether of residential type or commercial or industrial.

The redevelopment must be financed by private capital. Local government merely starts the machinery in motion with federal funds.

But the taxpayer enter the picture if and when the cost of acquiring the blighted property is greater than the sale of the property for redevelopment. Under existing laws, the difference is made up by public funds.

Proposition 18 would shift this tax burden. It would enable local governments to place into a special fund part of the property taxes collected from the area after it is improved. The special funds would be used in defraying the difference between purchase and sale price.

Proposition 8 would extend to church buildings under construction the same tax exemption in for church building already in use.

The measure seeks to remove a technicality in the law. Its authors say the existing law needs correction because a State Supreme Court decision indirectly changed its interpretation by tax officials.

No opposition to Proposition 8 is listed in the secretary of state's report on propositions appearing on the November ballot.

CITIZEN PROTEST GRAVEL REMOVAL. FROM LOS GATOS CREEK BED AT COUNCIL MEETING MONDAY NIGHT

City Council Monday night set October 27 as the date of public hearing on three applications for permits to remove gravel from Los Gatos Creek bed between Campbell and Hamilton Ave. bridges.

Delay in hearing on applications of A. J. Raisch Paving Company of San Jose, John Brynteson Ranch and Mervyn S. Keesling was required when interested property owners submitted a 100 name petition objecting to removal of gravel until a complete and disinterested engineering report had been submitted. Property owners wanted that no damage to homes or property would result from winter creek conditions.

S. J. City Attny. Refutes CUHS Annexation Charge

A decision by the State Attorney General concerning Campbell Union High School's request to challenge legality of San Jose's South Willow Glen No. 10 annexation is expected within the week.

Attorney John Burnett, for the school district last week asked for such permission on the basis that individual parcels of property within the annexation are not legally contiguous to each other. He said they were "gerrymandered" to escape an annexation election.

San Jose's position, drawn up by Assistant City Atty. Eugene Rindler, takes exception to every point of law cited by Burnett.

In reply to Burnett's "gerrymander" charge, Rindler said irregular shape of the annexation territory, extending toward Cambrian Park, results from the exclusion of persons who did not want to be annexed.

Burnett also charged that South Willow Glen is not "contiguous" to the city according to the word's legal definition. Burnett said that contiguity is broken by the Plummer Ave. right-of-way. Rindler points out that parcels of property along Plummer Ave extend technically to the center line of the street, and that true legal contiguity exists between the annexation and the old city limits line.

Rindler also said that Burnett's allegation that the city's annexation was plotted on an obsolete map, and that a later realignment of Foxworthy Ave., also destroys contiguity within the annexation, has no legal basis.

Moorpark PTA To Hold First Meeting Tuesday

Moorpark PTA Unit will hold its first meeting of the Fall season Tuesday, October 14 at 8 p. m. in the Kindergarten room. The program will include a panel discussion of what the school, students and family expect of each other. Baby sitters and movies will be provided for the children.

ENGINEER SUBMITS REPORT ON L. G. CREEK BED GRAVEL OPERATION

City Engineer Mark Thomas, after listening to arguments for and against the removal of gravel in the Los Gatos Creek bed submitted the following recommendations which, he said were not to be considered a complete solution to the creek bed problem.

Thomas said excavation between Campbell Avenue and Hamilton Avenue would not result in flood damage to public or private property if the work is done under certain conditions, among which were:

(1) That the excavation be made so as to result in a channel with banks of straight alignment on tangents and with sweeping, long radius, curves at bends in the channel.

(2) That new channel have down stream slopes of not less than 0.2 per cent and not more than 2 per cent.

(3) That no excavation be made which result in a slope of more than 5 percent from the now existing toe of slope of the banks of the creek.

(4) That no excavation be made within 50 feet of the concrete retaining wall excepting that in the area near the entrance road to the Keesling pit, excavation may be made closer than 50 feet provided the excavation is not lower than the top of the foundation of said concrete wall.

(5) If channel called for above cannot be completed before the rains of the coming winter season, a ditch be dug between the pits so that the water will tend to

flow in the new well aligned channel.

(6) That the entrance road to the Ainsley pit, off Poplar Avenue, be maintained with an oil and screening surface during all operations in order to prevent dust.

(7) When gravel has already been removed to depth greater than those specified above that the same be replaced by the coarsest gravel available.

In addition Thomas said that if work were to be done it should be subject to the following additional conditions:

(1) That operations be confined to the time from 8 a. m. to 5 p. m. on weekdays.

(2) Gate and fence should be installed at entrance, gate to be locked at night.

(3) Where rip rap and or concrete blocks have been moved they shall be replaced.

(4) That operator post a bond of \$3,000 to guarantee street repairs.

(5) Operator should post \$50,000 for five years after completion to guarantee claims for damage to and guarantee payment to the city and individuals.

Arthur Kennedy, representing Raisch Company agreed to furnish such report.

Majority of concerned residents voiced disapproval to the proposed operation on the grounds that:

(1) Land and homes were destroyed in previous years by creek waters.

(2) Property value would depreciate by commercial gravel excavations.

(3) Use of heavy machinery would create a safety menace as well as a nuisance.

(4) A health menace would result by creating breeding places for flies and mosquitoes.

Arguments in favor of gravel removal voiced by Kennedy, Eldon Erickson and W. H. A. Coney of Brynteson Ranch were that gravel would be removed in the center of the creek bed to form a clearly defined channel which would tend to keep water away from banks. Kennedy said excavation would follow specifications outlined by City Engineer Mark Thomas (Engineer's report in other column of Press. Erickson said he was in favor of a channel being cut to keep water from undermining trees growing too close to the bank. He admitted that money received from the sale of gravel was also a consideration.

Other property owners in the Council audience voiced their opinions on the proposed gravel operation.

Jack N. Marsh, 441 Maple said his brother-in-law's house fell in the creek in 1942 and that he was against any commercial venture in the area without an engineer's assurance that land and homes would be safe from erosion from creek water.

Warren Turner, 155 El Patio said that he purchased his property on the promise from Ainsley Corporation that the location would remain an R-1 district, and that attempts would be made to beautify the area. Verle Grizzle, 40 Poplar Ave., in a follow up, said that granting one permit for a commercial gravel operation might set a precedent for future commercial zoning of the area.

Grizzle said the clatter of heavy machinery besides being a safety menace to children would be a community disturbance.

Mrs. Frank Noyer reminded council members that former gravel operations had permitted creek water to wash out a corner of her El Patio home in 1942.

Mr. and Mrs. David Ribble offered to show moving pictures of their home being washed away by creek water in 1942.

George E. Beardon, 431 El Patio, said that holes left by excavations would create a menace to children besides being breeding places for mosquitoes.

Lloyd Hichman, 449 El Patio and Turner said they had been watching the creek for the past 22 years and in their opinion any removal of gravel would cause creek water to cut away the clay beneath and eventually cause land an dhouses to give way.

Turner mentioned that bulkheads built by Works Progress Administration in 1934 which re-routed the stream were torn out in 1927 by heavy rains and that in 1942 the water cut a five foot channel 25 feet wide which undermined supports for Campbell Ave. bridge.

PTA Meet Holds
Question Box

A Question box was featured for the opening program of the Campbell Union Grammar School P. T. A. meeting on Tuesday evening. This consisted of questions written by the parents concerning the Campbell school system and elementary education in general and the answers to which were given by the panel composed of Mr. Charles Bradley, Business Mgr. of the Campbell Union School District, Mrs. V. B. Royce, principal, Mrs. Helen Peterson, Coordinator of Instruction, and Mr. Duane Beabien, Vice Principal, with Mr. Jack Marsh, Instructor at San Jose State College, serving as moderator.

Among other things, the parents learned the school's policy regarding homework, what is being done to combat juvenile delinquency, and how the so-called Progressive System has been proven to help the child develop to the best of his capacity. It was also pointed out why the building and operating expenses can not be handled by local taxes alone. In conjunction with this, everyone was urged to study and to vote in favor of Propositions 2 and 24.

To open the meeting, Den 5, Pack 19, under the supervision of Mrs. L. Sloane, led the salute to the flag, followed by the reading of the inspirational by Mrs. H. Tragarth.

Mrs. Richard O'Flynn stated in her opening remarks that this is to be a "friendly year" and urged everyone to get acquainted. Upon the recommendation of the Executive Board, the usual business meeting was eliminated and the program concluded with the introduction of the teachers by Mrs. V. B. Royce.

The custom of open house was freshments served by the 8th grade then observed followed with refreshments in the newly-completed cafeteria.

MRS. L. J. BARBER
HITS JACKPOT
AT MODOC FAIR

Word has been received from Mrs. L. J. Barber, former well-known Campbell resident, that she hit the jackpot, figuratively speaking at the Modoc County Fair this year.

Mrs. Barber, who is a great garden enthusiast, and an Honorary Member of the Campbell Garden Club, took 19 firsts, 19 seconds, and 6 thirds, plus sweepstakes for best individual display from one garden. She also took a prize for her fancy work entry. Her total prize money was \$126. All of Hannah's friends here in Campbell knew she could do this fine job, as she certainly is gifted with the "green thumb".

Mr. Barber, not to be wholly outdone by his busy wife, took 3 firsts, 3 seconds, and one third, for his entries in the vegetable divisions.

Chief Blackmore
Praises Police
in Talk to Club

Chief Ray Blackmore of San Jose addressed the Campbell Country Woman's Club Monday on "Our Modern Police Force and Their Problems Due to Present Day Living". Chief Blackmore attributed many of California's current problems to the great influx of population during the war and thereafter. With the desirable element which immigrated in recent years has come a criminal element which has brought to our state problems which were never before known here, according to the chief.

Blackmore commended Governor Warren and his crime commission and also praised the Campbell police force. He assured his listeners that our vigilant police will soon let hot rod drivers and juvenile gangs know that they are not wanted here and will not be tolerated here.

Miss Lorraine Wood, SJSC student and pupil of William Erlendson, played several piano selections after Chief Blackmore's talk.

Mrs. Vernon Suess presided at the business meeting which followed the program. It was announced that the next meeting of the club, which will be the second of the season, will be the annual "Guest Day" tea, on October 20th.

MORELAND PTA
HOLDS FIRST MEET

Moreland PTA business was discussed briefly at its first meeting, Oct. 1, in the School Auditorium. The mothers and teachers gathered primarily to get acquainted with each other.

An unique fashion show was one of the events. Each officer and member of the executive board appeared in costumes representing the office or duties she performed. While Mrs. Martha Bruce, music chairman, played suitable "fashion tea" tunes on the piano, Mrs. Ruth Langen, president, in her melodious voice gave the names and brief outline of the models' PTA functions.

Some of the outstanding costumes were Mrs. Barbara Tiffany, whose red wig, outlandish spectacles, and large notebook indicated her position as secretary, while Velma Holmes, chairman of the membership committee drew a laugh with the "fishing for members" angling outfit. Ruth Wetterstrom looked most realistically battered, with cast on her leg, bandage on her head, and bloody looking lipstick streaming down her face—all this conveyed that she is Safety chairman. As PTA magazine chairman, Helen Archibald arrayed herself in the organizations publications; Angie Spino dressed in an authentic "gay nineties" costume, representing PTA's 1897 Founders day, which committee she heads; Laura Neale's old time costume, antique baby buggy and doll represented the first room mother; and even Gussie Baker, superintendent of the Moreland School district indicated her chairmanship of the legislative committee with a voluminous cap and gown ensemble.

During the business meeting, Mrs. Baker discussed problems and answered questions. She stated she felt confident the new Quito

CAMPBELL HI-LIGHTS

by Bob Olson

You don't have to travel to Palo Alto or Berkeley to see a crack-jack of a football game this weekend—merely to Fremont High's well lit field in Sunnyvale. For here one can witness the SCVAL's "Game of the Week" between once-beaten Fremont (Willow Glen 7-9) and once victorious Campbell (Capuchino 19-0).

We are not certain whether The Bucs really were as good as they looked in last Friday's opener or whether Capuchino was just grass-green. But nothing helps one continue to succeed like initial success and that victory was the best morale-builder our school's had in over a year. You could sense it in the crowd which, by the way, made a mighty pretty picture, completely filling the East stands. There was some half-hearted cheering and somewhat ineffective pom pom waving in last Friday

morning's rally but nothing to match the yell that went up after Friday afternoon's second quarter touchdown pass from Sutton to Camilleris. And later when "Big Bill" Gregg dragged half the Capuchino team with him over the goal for a second TD. (He looked as hard to pull down as Standee could be with Stanford!) They could hear our roar in downtown San Jose.

Something happened to Campbell's rooting section last Friday afternoon, and that something was a taste of victory—and, boy! were we hungry!

The spirit resulting from that victory is still with us. You could sense it at the Freshman Dance in the girls' gym Friday night where everyone was proudly referring to "our team" even while gliding across the floor to the music (the sweetest this side of Burlingame) of ———— and his ————

You hear it in the cafeteria lines during both our lunch hours; you hear it in the gym and out by the pool and you sense it in the classroom (it even came up in world history discussion of reincarnation, of all places). It's the kind of spirit that makes for a lively season if not a completely victorious one. And who says we won't trip up Fremont's Indians Friday night in a scalping those redskins will never forget?

In any event, get there early. Everyone else is. You will sense a new Campbell spirit that will send

shivers up your spine—and you'll sense a new kind of confidence about a team that too many so called experts in this valley have thus far underestimated.

A bit more on the dance Friday night, for it was a revelation to this scribe. It's been a long while since he's been a part of a better-mannered school crowd. The decorations were original, the girls pretty, and the boys surprisingly smooth and courteous. Even the music was better than expected—it's hard to believe that—and his swingers are little more than high-schoolers. Too bad they'll soon be losing their ace drummer ———— to the U. S. Air Force. Certainly, the art work decorating the girls gym was a professional-looking job. We understand that the CUHS Art Commission and Mrs. Winston deserve all the credit, for those ACers worked every afternoon for two weeks transforming the gym into a fetching "Freshman Club".

The school band, under the direction of Mr. McCroy, sounded better-than-ever at Friday's game even after only two weeks' practice. They'd already played another big game at Berkeley, participating in the half-time proceedings of the Cal-Missouri contest. Though still in desperate need of more drummers and clarinetists, the group is already helping tattle everyone into the football spirit. These Campbell bandsmen are hoping to be able to see and hear the U. S. Marine Band when it plays at Fort Ord on October 17th.

Some of our musicians are a bit more "long hair". We mean the lucky fifty-nine going to S. F. next Wednesday, October 15th. They'll leave Campbell by school bus at 10:30 in the morning, fill up with food in a S. F. Compton's, and then enjoy a high class afternoon of "Il Pagliaccio" and "Cavalleria Rusticana" at the Opera House. They'll return culture-filled to Campbell before 6:00 p. m.

I was interested to learn that the great 49er end Billy Wilson, was a former Campbell high-schoolite. Makes you wonder where fellows like Tony Musladin or Bob Ciraulo will be five of ten years from now.

The applause at Yankee Stadium or Ebbett's Field this past week wasn't any more spontaneous than that to be found right in our own auditorium—for the lucky study hall students cheered Mize's home runs as enthusiastically as anyone in New York even though they were merely looking at a TV version of the series. This, too, can be an education.

COMING EVENTS—Here we are again, the annual PTA benefit show (featuring a colossal Manhattan pantomime) on October 24. . . The Future Farmers' exhibits at the Cow Palace in S. F. . . C and D basketball at San Lorenzo next Monday. . . "B" football at 6 p. m. before the big game at Fremont Friday night. . . soon, the announcement of the winner of the new school song contest (the lyrics must be original even if the music isn't). . . October 4th, Duke Art, world famous sculptor in an all school assembly. . . but, bet of all, that varsity game 8:00 p. m. Friday at Fremont.

GUBSER ADDRESS CAMPBELLITES AT 'COFFEE HOUR'

Charles S. Gubser, Republican candidate for U. S. Representative from 10th Congressional District, addressed two "Coffee Hour" gatherings in Campbell homes yesterday.

He appeared briefly at homes of David E. Wood, 512 Old Orchard Road and Mrs. Lee Critchlow, 537 Apricot Ave.

Justice Candidate Feathers Resident of Area 30 Years

Lyman L. Feathers, candidate for Judge of the Justice Court for the Saratoga-Campbell-Los Gatos district, first came to this area in 1914, when his parents moved to the Union District of Los Gatos.

He attended Union District Grammar School and Campbell and Los Gatos High Schools. After graduating from Los Gatos High School he went to San Francisco, where he worked for the Ford Motor Company for five years. Returning to Los Gatos, he engaged in the taxi business for about a year and a half, when the lure of the mining camps took him to Gilbert, Nevada, where a gold rush was in progress. He spent three years in business there, during two of which he served as an unpaid deputy sheriff, in the "Wild West" days of that time.

Returning to his Los Gatos home he joined the Los Gatos Police department in 1929, serving four years, and retiring as Chief of Police of that city in 1943, to again go into the taxi business, selling it in January of this year to devote his time to campaigning for the office of Judge of the District Court. While in the taxi business, he served three years as Constable of Redwood Township, (Los Gatos) to round out his experience in all phases of law enforcement.

Imagine being afraid of a tomato!

Early Americans called tomatoes "love apples" and didn't dare to eat them.

Then, on September 26, 1820, in the courthouse square at Salem, New Jersey, a certain Colonel Johnson ate a tomato and proved to an assemblage of 2,000 that such a superstition was nonsense.

An equally important event, as far as the tomato was concerned, occurred when scientists of American Can Company, after years of patient research, overcame the last obstacle to the successful canning of tomato juice.

Last year, California grew 2,291,000

tons of tomatoes for making juice and other tomato products. Because of this huge production, you—and people everywhere—enjoy a plentiful source of Vitamin C.

This is just another example of how can-makers and the canning industry contribute to the well-being of a population.

As California's many nutritious fruits, vegetables, and other foods have been made available in modern containers, people everywhere have enjoyed an improved diet. And more and more income has been created right here in California.

State Prexy Speaker At Kiwanis Club

Campbell Kiwanis Club had as their speaker Dr. John Walquist, President of San Jose State College at their last regular meeting. He was introduced by John Duncan, principal of Moorpark School.

Dr. Walquist gave a very enlightening talk on the sizes, plans and hopes for the future of San Jose State College. He commented on the attitude of student body and faculty alike after his arrival in San Jose. He wondered what the feeling was and after three weeks of contact with all concerned he came to the conclusion that friendship was the keynote at State.

Plans for the future enlarged San Jose State College include reaching those students who normally would be unable to get a college education.

Lower costs and a greater number and variety of courses would enable the College to do this, Dr. Walquist said.

Next week's meeting will be the showing of Campbell High School's Football Team in action. Pictures will be shown of the first game with Capuchino.

BACHE STILL HAS BURNING PERMIT TROUBLE

Alexander Bache who earlier had applied to Campbell city council for a permit to burn refuse on the Campisi property in Campbell and was denied, is having the same kind of trouble in San Jose.

District Attorney was requested Monday by Board of Supervisors to institute abatement proceedings against a burning pit operated on the east bank of the Coyote River near Southern Pacific railroad tracks.

Grounds for the proceedings, the board was told, were that the pit constitutes a nuisance to adjacent property owners.

Earlier, Dist. Atty. N. J. Menard had indicated that a permit to operate the pit, requested by Bache and first granted and then removed by the planning commission was not necessary. Menard said the pit was in an agricultural zone and more than 1000 feet from a road, and therefore didn't need a permit.

MORELAND MEN ENDORSE PROP. TWO AND FOUR

The club went on record as favoring a "YES" vote on Proposition 2 and Proposition 24 in the coming election.

A work day planned for Saturday, October 11th at the new El Quito Park School for the purpose of installing play equipment. All fathers are urged to turn out for this event on the theory that many hands make the work lighter.
